Poynings Grange, Sussex

Poynings Grange is a small family-run farm with a beautiful 6 acre vineyard which was first planted in 2010. The Crowther family have a passion for producing great wine for their local community at an affordable price. They now produce on average 5000 bottles a year, making their wine very exclusive as well as downright delicious. We are delighted to be able to offer their Blanc de Blancs as a part of our Christmas offer this year.

Four things to consider when pairing wine with food

There are no hard and fast rules. Red with meat and white with fish is far too limiting when you consider the range of cuisines eaten today. However, the four very important rules to remember are:

- 1) Always choose a wine to accompany the strongest flavour on your plate (sometimes a sauce or accompaniment, not the centrepiece)
- 2) Always have more sugar in your glass than on your plate - dry wines won't taste good with dessert
- 3) The lighter the dish, the lighter the wine you should select to accompany it
- 4) Respect tradition. Wines local to a dish's place of origin will often be the best option - Loire Chenin Blanc with goat's cheese, Argentinean Malbec with steak, Picpoul de Pinet with Mussels

Christmas Food and Wine Matches

Everyone's Christmas table will vary slightly, however at least some of the following items are likely to be making an appearance at some point over the Festive period in most households.

Turkey - A juicy Pinot Noir if you prefer lighter, or Bordeaux or Rhône if you prefer something more full-bodied. If drinking white, then a fuller bodied white such as White Burgundy or Rhône

Goose - Crisp, dry Riesling is perfect to cut through the fattiness of the meat

Beef - Robust reds such as Malbec, Rioja or wines from the Rhône are ideal

Vegan Nut Roast - A fuller flavoured white such as Pinot Gris, or fuller red such as Gigondas

Cheese - there is no one wine that will go with a mixed cheeseboard! Port & stilton, Loire Chenin Blanc with goat's cheese, oaked Chardonnay with rich creamy cheeses such as brie...

Christmas Pudding / Christmas Cake - Tokaji is always a great option

FESTIVE MAGNUM SELECTION

Go Large....

Magnums are used by wineries not because they look 'showy' (although they do), but because they help a wine age better than a regular sized bottle. This is because the ratio of wine to air and cork in a magnum is significantly higher than in a bottle, and therefore the possibility of problems is reduced and the wine can age more reliably over time. This is why many collectors seek out large format bottles. But let's face it, they also make a bold statement, and who doesn't enjoy having a really big bottle to share at a party?

2013 La Petite Eglise (Pomerol, Bordeaux)

2nd wine from Château l'Eglise-Clinet. The entire 2013 vintage from this Château was bottled in magnum. Precise and fragrant with crushed stone scents filtering through the red berry fruit. Medium-bodied with lively fruit and supple structure. Drinking beautifully now.

Per Magnum **150cl**

2019 Chacabuco Malbec Los Haroldos Mendoza, Argentina

This is a classic, traditional Malbec that is unoaked, giving it a more fruit-forward flavour on the palate. Delicious plums and cherries with a little spice and some smooth tannins leading to a long finish.

To decant or not to decant?

That is the question...

We are often asked if we would recommend decanting wines. The answer in 99% of the situations is Yes - mainly for red wines, but sometimes for whites too - particularly full bodied and/or oaked whites. There are two main reasons for decanting your wine:

The first reason is to get the wine away from any sediment that has built up in a bottle over time. Sediment is harmless but can be unpleasant to drink. If you decide to decant, leave the bottle stood upright so the sediment can settle to the bottom. Then get a light, (your phone torch will work well), and shine it so that as you pour the wine slowly into the decanter you can see when the sediment reaches the neck of the bottle.

The other main reason to decant is to allow a wine time to slightly oxidise and open up its flavours. How long you should do this for is not a science and differs from wine to wine and drinker to drinker. Sometimes the producer will note on the bottle how long they recommend you decant their wine for but as a general rule of thumb somewhere from 20 minutes to an hour is plenty of time for most younger wines.

Traditional Ale or Craft Beer?

This is a question we are asked regularly. In a nutshell, traditional (or real) ales are generally flatter and brewed with traditional ingredients - water, malted barley, hops and yeast. Think your classic Country Pub pint. On the other hand, craft beers are brewed to emphasise creativity and unique tastes without constraints. Hazy in appearance and slightly carbonated. Think pond water, but tastes great!

When it comes to Christmas beer, you can't beat something rare and special from Belgium. Sitting in front of the fire, next to the Christmas tree with a good book sipping a rich, malty beer with a hint of clove spice just sings Christmas!
